

CRIOUS

CHAIN SAW OIL

Description

Crius is a high-quality chain saw oil, based on high refined base oils with a special additive package to provide a very high adhesive strength to the chain to provide excellent lubrication properties and avoid oil loss. Crius is especially developed to lubricate the chain of chain saws so that this does not break or get jammed. It is recommended for use for both engine and electrically driven chainsaws. Thanks to its optimum viscosity and excellent adherence properties, Crius penetrates deeply between bushes and links without dripping or splashing during operation. Moreover, this oil prevents any dust or sand accumulation.

Crius is NOT suitable to lubricate the engine of the chain saw.

Benefits

- Excellent “tackiness” properties to provide superior adherence of the oil and avoid dripping.
- Superior lubricating properties to prevent premature chain failure.
- Special rust inhibitors to prevent rust and corrosion.
- Good cleanliness to avoid any sand or dust accumulation.

Typical Properties

ISO VG		100	220
Code		LUB006903	LUB006904
Specific gravity at 15,6°C	kg/m ³	882	890
Viscosity 40 °C	cSt	102	218
Viscosity 100 °C	cSt	11.2	18.7
Viscosity Index		94	94
Pour Point	°C	-15	-15
Flash Point C.O.C	°C	220	230
Operating temperature	°C	-10/150	-10/150
